Creative Accomplishments

Other

Film or Video Project, "State High Lip Dub." (2012 - Present).
I was asked to help edit footage shot by Mike Craven for State College High School. The students were organized to perform a 14 minute lip synch while wearing costumes that displayed the many clubs and activities of the school. 1800 students participated while Michael took extended shots on a steady-cam. The long hand held sequence ended with a gymnasium full of students in a choreographed line dance.
