Bio

S. Shyam Sundar (PhD, Stanford University) is Evan Pugh University Professor and James P. Jimirro Professor of Media Effects. He is the founding director of the Media Effects Research Laboratory at Penn State University's College of Communications. He is also Director of the Center for Socially Responsible Artificial Intelligence, an interdisciplinary consortium at Penn State devoted to the development and application of AI with an emphasis on its social and ethical implications, enhancing social good and mitigating threats from its misuse. Prof. Sundar is a theorist as well as an experimentalist. His theoretical contributions include several original models on the social and psychological consequences of communication technology— Modality-Agency-Interactivity-Navigability (MAIN) Model, Uses and Gratifications 2.0, Interactivity Effects Model, Agency Model of Customization, Motivational Technology Model, Online Source Typology and the Theory of Interactive Media Effects (TIME), along with its extension to Human-AI Interaction (HAI-TIME). His experiments investigate social and psychological effects of human-computer interaction (HCI) and computer-mediated communication (CMC) with a specific focus on technological elements such as multi-modality and interactivity that are unique to modern digital media. His research portfolio includes extensive examination of user responses to online sources, including machine sources such as chatbots, smart speakers, and other forms of artificial intelligence (AI). Sundar was identified as the most published author of Internet-related research in the field during the medium's first decade. His research is supported by the National Science Foundation (NSF), Korea Science and Engineering Foundation, MacArthur Foundation, Facebook, Inc., and Lockheed Martin Information Systems and Global Services, among others. A frequently cited source on technology, Sundar has testified before the U.S. Congress as an expert witness and delivered talks at universities in several countries. He is editor of the first-ever *Handbook of the Psychology of Communication Technology*, published by Blackwell Wiley in 2015. He has served as editor-in-chief of the *Journal of Computer-Mediated Communication* and on the editorial boards of 20 other journals, including *Communication Research*, *Journal of Communication*, *Human Communication Research*, *Media Psychology*, *Journalism & Mass Communication*

Quarterly, Journal of Broadcasting & Electronic Media and *Journal of Advertising*. He is a Fellow of the International Communication Association (ICA), and has served as chair of its Communication & Technology division, 2008-2010. He is a recipient of the Frederick Williams Prize awarded by the division for contribution to the study of communication technology. He is also winner of the Paul J. Deutschmann award for excellence in research from the Association for Education in Journalism and Mass Communication (AEJMC).

Appointments

- 7/2024—present: Evan Pugh University Professor, Penn State University.
- 9/2021—present: Director, Center for Socially Responsible Artificial Intelligence, Penn State University.
- 9/2018—present: James P. Jimirro Professor of Media Effects, Department of Film/Video & Media Studies, Donald P. Bellisario College of Communications, Penn State University.
- 7/2009—9/2018: Distinguished Professor, Department of Film/Video & Media Studies, College of Communications, Penn State University.
- 9/2013—8/2015: Visiting Professor, Department of Interaction Science, Sungkyunkwan University, Seoul, South Korea.
- 5/2009—8/2013: World Class University (WCU) Professor (visiting appointment), Department of Interaction Science, Sungkyunkwan University, Seoul, South Korea.
- 7/2007—6/2009: Professor, College of Communications, Penn State University.
- 7/2001--6/2007: Associate Professor, Department of Film/Video & Media Studies, College of Communications, Penn State University.
- 7/2001-present: Co-Director, Media Effects Research Laboratory, College of Communications, Penn State University.
- 1/1997-6/2001: Director, Media Effects Research Laboratory, College of Communications, Penn State University.
- 7/1995--6/2001: Assistant Professor, Department of Film/Video & Media Studies, College of Communications, Penn State University.
- (*affiliate faculty appointments at Penn State: Advertising Department, Architecture Department, Communications Arts & Sciences Department, Center for Democratic Deliberation, Center for Human-Computer Interaction, Immersive Environments Laboratory, Institute for Computational and Data Sciences, North-East Visualization and Analytics Center*).

Education

- Stanford University, Ph.D. in Communication with minor in Psychology, 1995.
- University of Alabama, M.A. in Communication with emphasis in Journalism, 1991.
- Bangalore University, B.S. in Communication, 1989.
- Bangalore University, B.E. in Mechanical Engineering, 1988.
